Comp. Biochem. Physiol. Vol. 125A, No. 4, pp. III–V, 2000

CONTENTS OF VOLUME 125

Vol. 125A, No. 1

In Appreciation 1

Editorial
P. W. Hochachka and T. P. Mommsen 9 Who determines our trajectory beyond the year 2000 — you do

General Papers

E. Caviedes-Vidal, D. Afik, C. Martinez del Rio and W. H. Karasov 11 Dietary modulation of intestinal enzymes of the house sparrow (*Passer domesticus*): testing an adaptive hypothesis

M. Shmueli, I. Izhaki, O. Zinder and Z. Arad 25 The physiological state of captive and migrating Great White Pelicans (*Pelecanus onocrotalus*) revealed by their blood chemistry

Y. Enoki and T. Morimoto 33 Gizzard myoglobin contents and feeding habits in avian species

T. J. Miller, R. D. Hanson and P. H. Yancey 45 Developmental changes in organic osmolytes in prenatal and postnatal rat tissues

T. B. Corona and S. J. Warburton 57 Regional hypoxia elicits regional changes in chorioallantoic membrane vascular density in alligator but not chicken embryos

E. Ophir, Y. Arieli, P. Raber and J. Marder 63 The role of β-adrenergic receptors in the cutaneous water evaporation mechanism in the heat-acclimated pigeon (*Columba livia*)

C. Rothmann, T. Levinshal, B. Timan, R. R. Avtalion and Z. Malik 75 Spectral imaging of red blood cells in experimental anemia of *Cyprinus carpio*

A. C. Hobby, N. W. Pankhurst and J. A. Haddy 85 The effect of short term confinement stress on binding characteristics of sex steroid binding protein (SBP) in female black bream (*Acanthopagrus butcheri*) and rainbow trout (*Oncorhynchus mykiss*)

Y.-H. Lee, H.-Y. Lee and H. R. Kim 95 Purification and characterization of epidermis-origin hemolymph protein in *Galleria mellonella*

B. Röll 105 Carotenoid and retinoid — two pigments in a gecko eye lens

D. P. S. Leitão, A. C. M. Polizello and Z. Rothschild 113 Coagulation and fibrinolysis in capybara (*Hydrochaeris hydrochaeris*), a close relative of the guinea-pig (*Cavia porcellus*)

N. Chaiyabutr, S. Preuksagorn, S. Komolvanich and S. Chanpongsang 121 Glucose metabolism in crossbred Holstein cattle feeding on two types of roughage at different stages of lactation

U. Katz, A. Rozman, G. Zaccone, S. Fasulo and S. Gabbay 131 Mitochondria-rich cells in anuran Amphibia: chloride conductance and regional distribution over the body surface

A. F. Sanborn and S. Maté 141 Thermoregulation and the effect of body temperature on call temporal parameters in the cicada *Diceroprocta olympusa* (Homoptera: Cicadidae)

Announcement 149

I Instructions to Authors

Vol. 125A, No. 2

Reviews

W. S. Peters, W. Hagemann and A. Deri Tomos 151 What makes plants different? Principles of extracellular matrix function in 'soft' plant tissues

C. A. Loretz and C. Pollina 169 Natriuretic peptides in fish physiology

General Papers

A. M. Beal 189 Effect of β-antagonists on isoprenaline-induced secretion of fluid, amylase and protein by the parotid gland of the red kangaroo, *Macropus rufus*

M. Scantlebury, R. Butterwick and J. R. Speakman 197 Energetics of lactation in domestic dog (*Canis familiaris*) breeds of two sizes

T. Liukkonen-Anttila, R. Saartoala and R. Hissa 211 Impact of hand-rearing on morphology and physiology of the capercaillie (*Tetrao urogallus*)

G. A. Gerencser, G. A. Ahearn, F. Robbins and M. A. Cattey 223 Chloride transport by lobster hepatopancreas is facilitated by several anion antiport mechanisms

C. M. Carpenter and G. E. Hofmann 229 Expression of 70 kDa heat shock proteins in antarctic and New Zealand notothenioid fish

J. V. Hintz 239 The hormonal regulation of premigratory fat deposition and winter fattening in red-winged blackbirds

L. R. Listerman, J. Deskins, H. Bradacs and R. L. Cooper 251 Heart rate within male crayfish: social interactions and effects of 5-HT

W. Miltyk and J. A. Pałka 265 Potential role of pyrroline 5-carboxylate in regulation of collagen biosynthesis in cultured human skin fibroblasts

T. Grospietsch, T. Ya. Sitnikova and I. Zerbst-Boroffka 273 Comparison of calcium storage between a Baikalian gastropod and holarctic relatives

I Instructions to Authors

Vol. 125A, No. 3

Reviews

S. P. Reidy and J.-M. Weber 285 Leptin: an essential regulator of lipid metabolism

D. C. Jackson 299 Living without oxygen: lessons from the freshwater turtle

General Papers

R. M. Ortiz and G. A. J. Worthy 317 Effects of capture on adrenal steroid and vasopressin concentrations in free-ranging bottlenose dolphins (*Tursiops truncatus*)

B. Y. Lee, D. A. Padick and A. E. Muchlinski 325 Stress fever magnitude in laboratory-maintained California ground squirrels varies with season

H. A. Shiels and A. P. Farrell 331 The effect of ryanodine on isometric tension development in isolated ventricular trabeculae from Pacific mackerel (*Scomber japonicus*)

A. Ahamed, S. Tsurumi, M. Ozaki and T. Amakawa 343 Chromosaponin I stimulates the sugar taste receptor cells of the blowfly, *Phormia regina*

G. Ishikawa, K. Azumi and H. Yokosawa 351 Involvement of tyrosine kinase and phosphatidylinositol 3-kinase in phagocytosis by ascidian hemocytes

D. Burton and J. E. Vokey 359 α_1- and α_2-adrenoceptor mediation in melanosome aggregation in cryptic patterning of *Pleuronectes americanus*

J. R. Edwards, K. L. Koster and D. L. Swanson 367 Time course for cryoprotectant synthesis in the freeze-tolerant chorus frog, *Pseudacris triseriata*

M. N. Wilder, D. Thi Thanh Huong, M. Atmomarsono, T. Thi Thanh Hien, T. Quoc Phu and W.-J. Yang 377 Characterization of Na/K-ATPase in *Macrobrachium rosenbergii* and the effects of changing salinity on enzymatic activity

W.-H. Shen and R.-J. Xu 389 Gastrointestinal stability and absorption of insulin in suckling pigs

M. L. Burleson and N. J. Smatresk 403 Branchial chemoreceptors mediate ventilatory responses to hypercapnic acidosis in channel catfish

G. D. Goodman-Lowe, J. R. Carpenter, S. Atkinson and H. Ako 415 Corrigendum

I Instructions to Authors

Review

A. L. Val 417 Organic phosphates in the red blood cells of fish

General Papers

R. Hernández-Herrera and I. S. Racotta 437 Metabolic responses of the white shrimp, *Penaeus vannamei*, to ambient ammonia

N. Guerrieri, S. Scippa, M. Maietti, M. de Vincentiis and P. Cerletti 445 Protease activity in fractionated blood cells of the vanadium accumulating ascidian *Phallusia mammillata*

M. M. Souza, R. T. Boyle and M. Lieberman 451 Comparisons of different stages of chick embryonic development by the physiological regulatory response to hyposmotic challenge

A. Samson, K. L. Hamilton and A. Grant Butt 459 Effect of somatostatin on electrogenic ion transport in the duodenum and colon of the mouse, *Mus domesticus*

V. Santhanagopalan and T. P. Yoshino 469 Monoamines and their metabolites in the freshwater snail *Biomphalaria glabrata*

A. Kacem, S. Gustafsson and F. J. Meunier 479 Demineralization of the vertebral skeleton in Atlantic salmon *Salmo salar* L. during spawning migration

R. Bose and S. Bhattacharya 485 C-reactive protein in the hemolymph of *Achatina fulica*: interrelationship with sex steroids and metallothionein

T. H. Carefoot, B. E. Taylor and S. Land 497 Use of isolated digestive-gland cells in the study of biochemical and physiological processes in gastropod molluscs

S. G. Velleman, X. Liu, K. E. Nestor and D. C. McFarland 503 Heterogeneity in growth and differentiation characteristics in male and female satellite cells isolated from turkey lines with different growth rates

Y. Kato-Yoshinaga, M. Nagano, S. Mori, A. S. Clare, N. Fusetani and K. Matsumura 511 Species specificity of barnacle settlement-inducing proteins

R. S. Seymour 517 Model analogues in the study of cephalic circulation

A. Shimotoyodome, S. Meguro, T. Hase, I. Tokimitsu and T. Sakata 525 Short chain fatty acids but not lactate or succinate stimulate mucus release in the rat colon

I Volume Contents, Subject and Author Index for Vol. 125A
